

KELSEY THOMPSON

**A**

**B**

Freestyle = no rules. It's you. The water. Whether it's kicking a wave on the Gauley or snapping a nasty airblunt on Buseret, this is YOUR potential. What are you waiting for? Find a river, claim your wave and express your true self to the world.

PROJECT 45

PROJECT 62

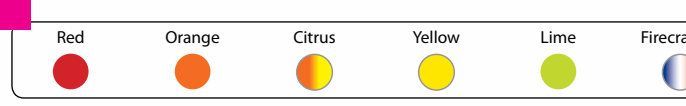

PROJECT 52

**C**

It has defined high-performance freestyle. The hull's combination of speed and pop, combined with smooth, sculpted volume distribution, are exactly why Peter Csonka picked the Project to dominate the 2008 World Cup. The air you'll be getting in this baby is unmatched. With 3 sizes, we call it the Project because it's our pet. Our always in beta boat. Our pride and joy. Paddle and believe.

**PROJECT**

	PROJECT 45	PROJECT 52	PROJECT 62	FEATURES
WEIGHT RANGE	80-140 lbs. - 36 kg-64 kg	130-190 lbs. - 59 kg-86 kg	180-240 lbs. - 82 kg-109 kg	-Thermofomed Play Seat

TAYLOR COTE

**RIVER PLAY**

For those who want to dial it back a notch, but still have the option for some freestyle love, we've got your back. Our river-running play boats get you down the river in one piece while surfing every playspot along the way. You'll get the forging feeling of a river-runner and the high-performance loose hull of a freestyle boat. So if you're a river-runner who sprints to surf every wave along the way, you've come to the right place.

FUSE 35

FUSE 48

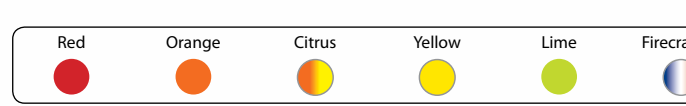

FUSE 56

FUSE 64

What do you call it when you bring a river-runner and freestyle boat together for one go-anywhere, do-anything boat? That's nice, but we called it Fuse. The legendary hull design is loose and fast on waves and the volume distribution is not only comfy, but hands you control whether you're throwing cartwheels or simply running your favorite stretch of river. With 4 sizes, there's a boat for everyone to get down their favorite river and tear up every single playspot along the way.

**FUSE**

	FUSE 35	FUSE 48	FUSE 56	FUSE 64	FEATURES
WEIGHT RANGE	60-110 lbs. - 27 kg-50 kg	100-160 lbs. - 45 kg-73 kg	140-210 lbs. - 63 kg-95 kg	190-270 lbs. - 86 kg-122 kg	-Thermofomed Play Seat (Kids Seat on Fuse 35)
COCKPIT	27.5" x 17.5" - 70 cm x 44 cm	33.5" x 19" - 85 cm x 48 cm	33.5" x 19" - 85 cm x 48 cm	36.25" x 20" - 92 cm x 51 cm	-Forward Ratcheting Backband (Rear Ratchet on Fuse 35)

LENGTH	5'10" - 178 cm	6'4" - 193 cm	6'6" - 198 cm	7' - 213 cm	-2 Deep Pocket Grab Handles

BRYAN KIRK

**RIVER RUN**

Point A. Point B. And all the points in-between. Are you skirting over a jumble of many rocks to line up for a 15-foot boof? Or maybe you're in the midst of a rapid that reminds you of the Zambesi at flood. Either way, you need a kayak that deals with any situation Mother Earth throws at you. River-running is half that way. So we've given you a boat that is made for that paddler that wants everything. And then some.

DIESEL 60

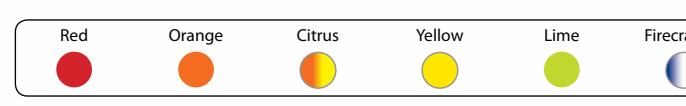

DIESEL 80

DIESEL 70

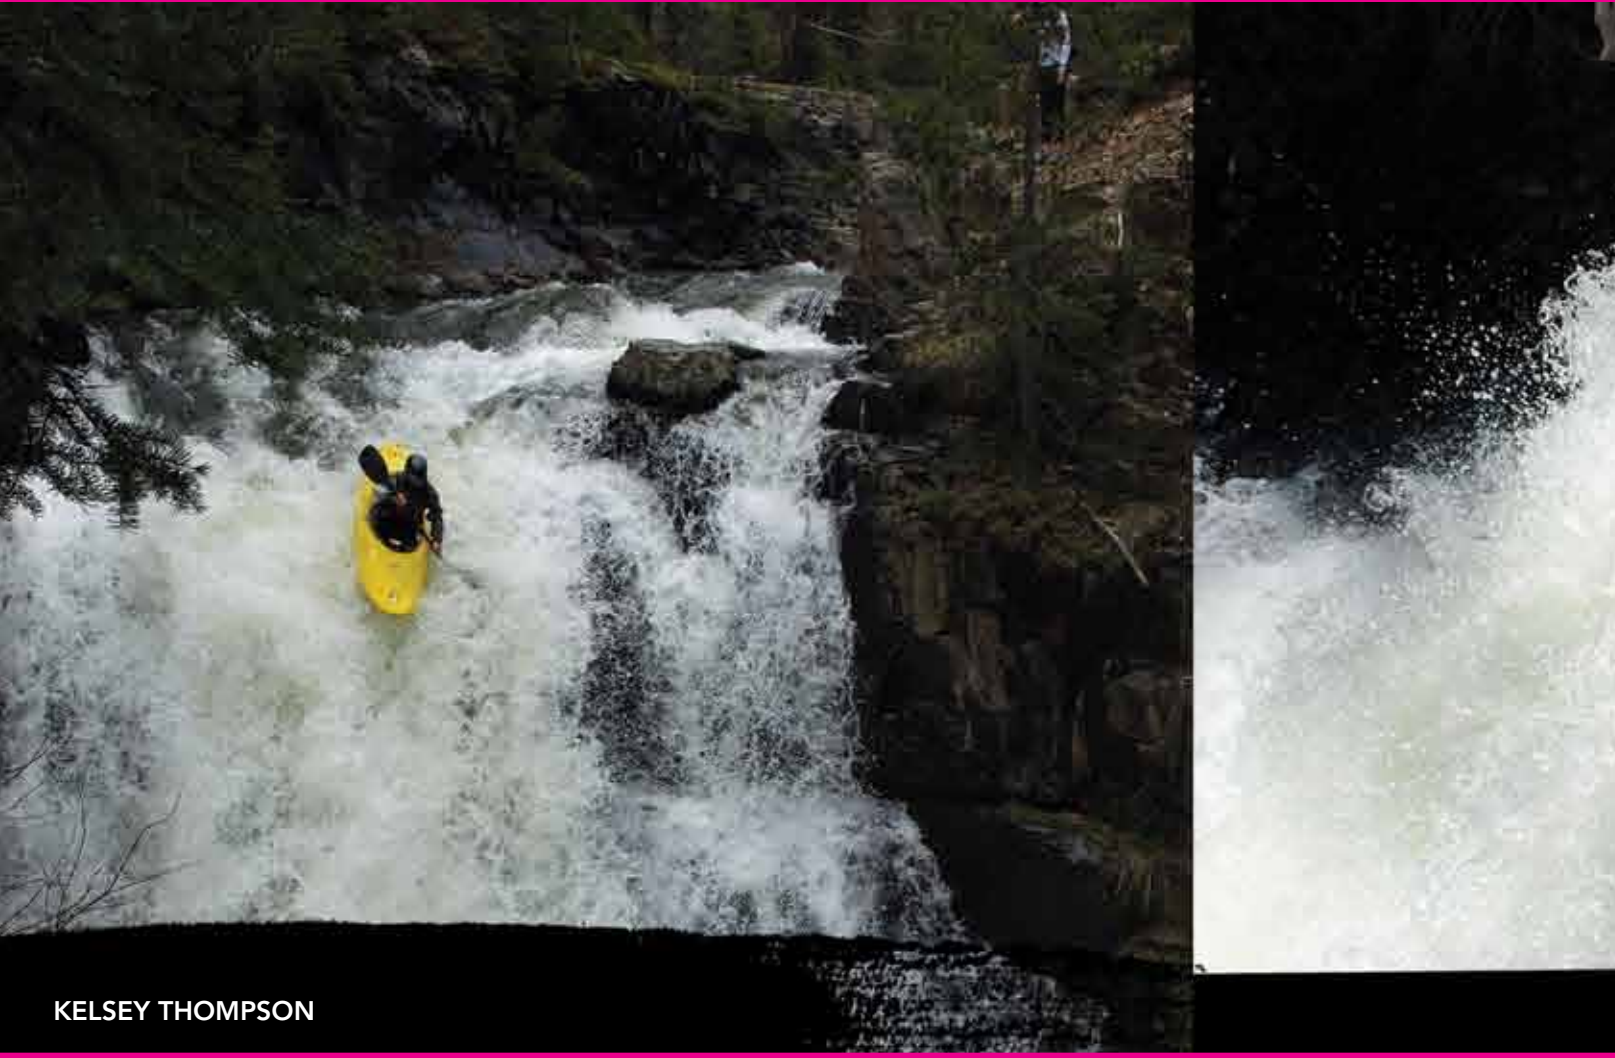

They've called it the 4x4 of kayaks. The SUV of river-runners. Runs rapids like a fast creekboat and also has a hull that will spin on green waves. Now it's all that and more. Peaked deck for resurfacing - check. A honed combination of planing hull and continuous rocker for the ultimate in agility - check. Outfitting that will let Sasquatch fit in a kayak - big, hairy, check. This isn't just an evolution of the original. Welcome to the next gen of river-running.

**DIESEL**

	DIESEL 60	DIESEL 70	DIESEL 80	FEATURES

TYLER CURTIS

**CREEKING**

Creeking is about a lot more than just getting from here to there. It's about exploring rapids that few paddlers have laid eyes upon or scouting for the perfect line with steep canyons that few paddlers share after greasing a class 5+ rapid. It's about that euphoric feeling you share after greasing a class 5+ rapid. And it's about making sure you all reach the take out in one piece. So you're gonna want to be wrapped in a boat that's solid, comfortable, responsive and safe. Ask and you shall receive. Creeking is all about the journey and the adventures that define you. You can't.

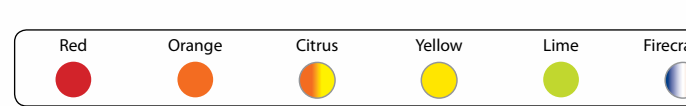

HABITAT 74

HABITAT 80

You want a boat that gets you through whatever the moment throws at you. This is it. The bombproof step pillar, 5 metal z-drag anchors and uber-stable, soft-landing hull are mandatory when you're plunging drops that have never before been run. The Habitat holds any line you put it on - and with the lift of a knee, you'll be carving into eddies with absolute control. You like that, don'tcha? We thought you might. So if you're just getting into creeking or an old pro, we've got the Habitat for you.

**HABITAT**

	HABITAT 74	HABITAT 80	FEATURES

**BOAT SPECS:** HOW WE GET THEM, WHAT THEY MEAN

**WEIGHT**  
Based on a fully assembled boat including all outfitting. (NOTE: When comparing other companies may not include outfitting in their weight specifications.)

**CAPACITY**  
Field tests determine each model's capacity, with maximum being the greatest load the model can carry and still perform under typical conditions.

**DIMENSIONS**  
Depth is measured from the highest point on the deck to the bottom of the hull directly under that point.

All Wave Sport kayaks are designed and manufactured in the U.S.A. and are covered by a 3 Year Limited Warranty. Coverage varies over the 3 years and limitations apply. Check out the website for full details.

To see a full line of paddles, visit [www.atpaddles.com](http://www.atpaddles.com).

Polyethylene expands and contracts with changes in temperature and humidity. Actual dimensions can vary from those shown in the Specifications Chart due to molding process and/or exposure to extreme hot or cold temperatures. Slight variations are not covered by warranty.

Specifications and features are subject to change. Colors may vary slightly from those shown in catalog. Color combinations (Citrus, Firecracker) will vary from those shown in catalog and are unique for each boat we produce. Variations in color are not covered by warranty.

**OUTFITTING**

**FIT ADJUSTMENT TECHNOLOGY (F.A.T.) OUTFITTING SYSTEM**

Almost a decade ago, Wave Sport revolutionized whitewater kayak outfitting with its simple, comfortable, and glove-like fit of the F.A.T. Outfitting System. Today, the fifth generation F.A.T. technology uses the latest engineering techniques and whitewater innovations in the ultimate outfitting for whitewater kayakers who are serious about performance.

Each kayak series has outfitting configured to meet the unique demands of its style, whether full-on playboating, mind-jarring creeker action, or the balanced approach for river running. Comfortable, adjustable, rock solid, and free of pressure points.

The secret to the F.A.T. outfitting is the intuitive features and layout of each model that have been based on feedback from thousands of miles (or kilometers) of paddling in rivers around the world. Small details, such as low seatbacks for easy access storage, quick-adjusting thigh ratchet backband, easy-adjusting aluminum rails, and convenient grab handles become big deals on the long haul.

The major innovations, such as precision cut, aluminum thighbraces, injection molded hooks, next generation bulkhead system, and premium hip pad, seat pad, and backrest materials keep Wave Sport at the front of the pack. For the ultimate experience, only Wave Sport combines the cutting edge boat designs with the latest in outfitting technology that give you the upper hand in the battle of nature versus man.

WHITEWATER. PERIOD.

KELSEY THOMPSON - OH BE JOYFUL

## WHITEWATER PERIOD

Not exclamations. Not excuses. Or anything else that doesn't need to be there. Look, there aren't enough definites in life. But when you're in your boat, you're in control. You go anywhere your imagination and skill take you. Period. And that's enough. We've poured our heart and souls into boats that master the unpredictable and let you create new moves, new lines, new experiences. From freestyle to creeking, we're putting the tools in your hands (and under your butt) to go out there on your own journey and take control. Period.

**PLAY HARD**

TEAM WAVESPORT - We're gonna need a bigger trophy case. But Team Wave Sport do a lot more than just bring home national and international medals. They give loads of input to R&D and test our boats until we finally get their blessing...so you know you're paddling what they're paddling. When they're not punishing new boat designs or training for the next event, they're blazing first descents or contributing their time to a worthy cause. They put in a lot of hours and a lot of hard work. And when it comes to the journey, they always make the most of it.
